

Sliding Rail Specification

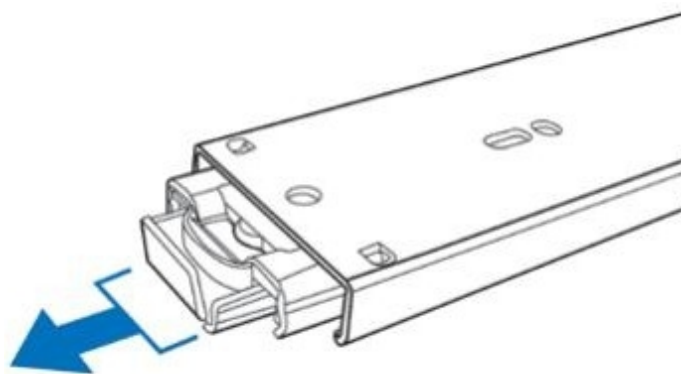

导轨说明书

1. Rail Kit Parts inventory 导轨套件包含以下部件

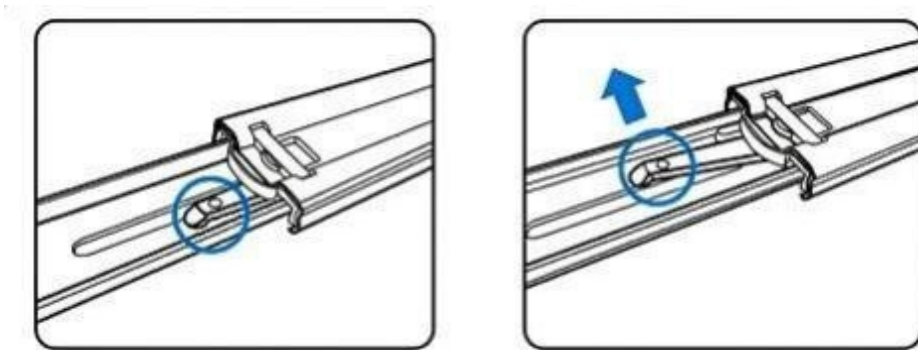

2. Installation Guide 安装说明

①

Pull the center slide all the way out until it reaches the end.

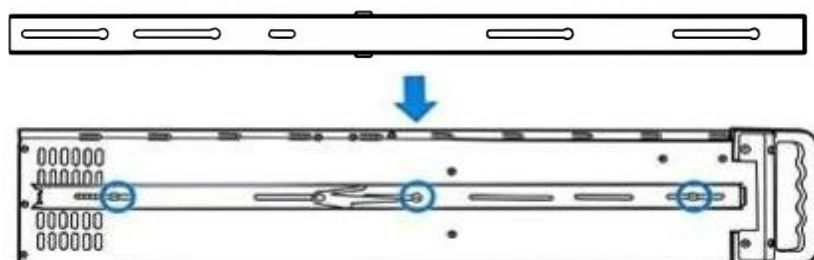

把内轨往外抽拉到底。

You will see a locking clip at the end point of the center slide. Push it down and unlock the center slide.

你会看到一个卡扣，把卡扣向上拨/向下拨（左边内轨向下拨，右边内轨向上拨），就可以把内轨拔出。

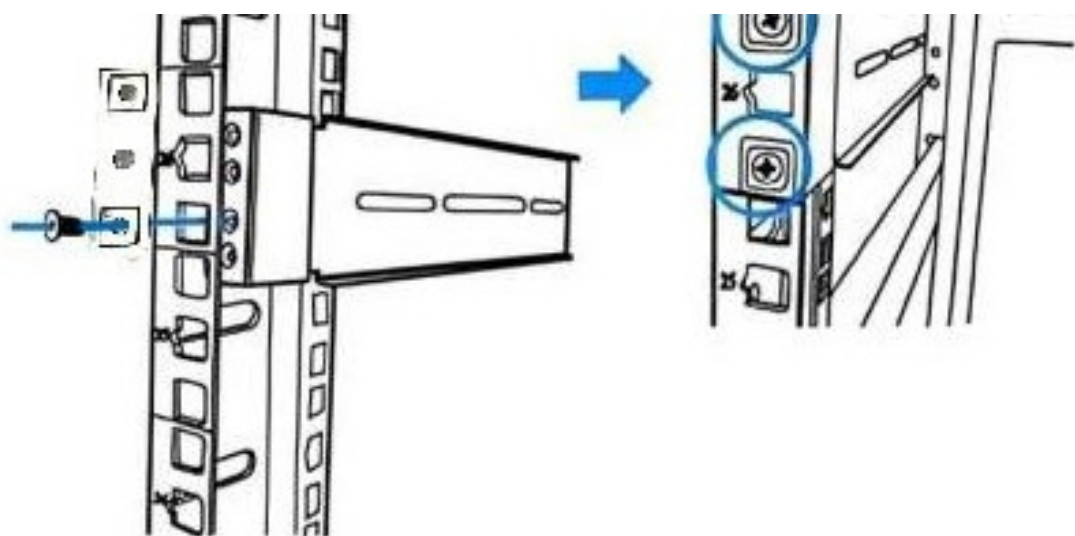

②

Now put the center slide right next to the rackmount chassis. You should be able to find screw holdes on both sides of chassis. Holes are used for mounting the center slide. Later, the center slide will be use for attaching the sliding rail.

把内轨放到机箱侧面，前后移动内轨，当内轨到达合适的位置后锁上螺丝。

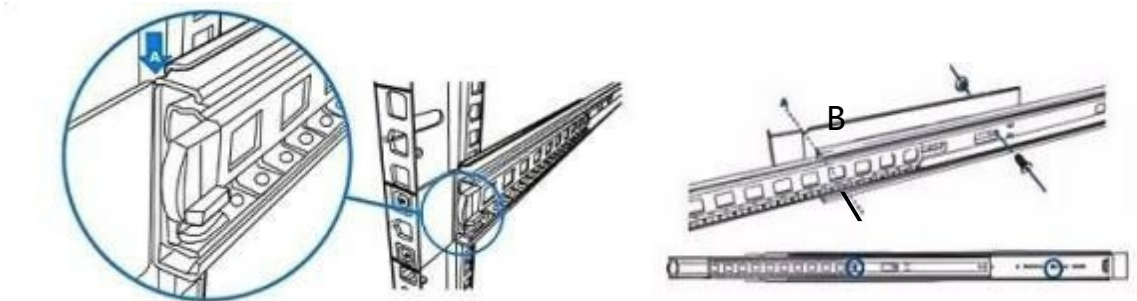

③

Attach an extender mounting bracket on to the cabinet, use the long screw to secure the extender bracket on to the cabinet frame, 4 side should have the extender bracket (2 in the front, 2 in the back of the cabinet).

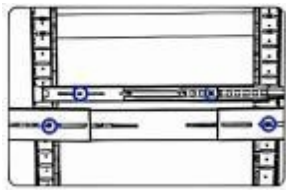

把延伸器放到机柜上，用长螺丝把延伸器固定在机柜立柱上，四边都要锁上延伸器（前面 2 个，后面 2 个）。

④

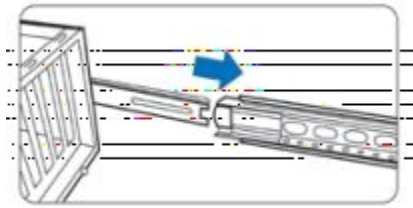

Aline front outer rail to the indent bracket between Point A & B. Secure outer rail to the bracket with screws .
对准 A 和 B 点，把外轨放进延伸器里面，用螺丝把外轨固定到延伸器上。

⑤

Repeat previous steps to secure sliding rails on both sides.
重复以上步骤，把所有外轨都固定到伸缩器里。

Reattach inner rail back to center rail.
把内轨插回外轨里面。

3. Parameter 参数

Contractive Length :	50cm	收缩长度 :	50cm
Stretched length :	100cm	延伸长度:	100cm
Support:	Sohoo 1u-4u Case	支持 :	Sohoo 1u-4u Case
Weight bearing:	30kg	承重 :	30kg
Material:	SGCC	材料 :	SGCC 镀锌钢板
Assembly Height :	48.4mm	组装高度 :	48.4mm
Assembly Thickness :	27mm	组装厚度 :	27mm
